PROTECT YOUR EVIDENCE

HauteVIEW 8 Port Dock Modules come with Dock Management Software (DMS), which provides reliable transfer and storage of your valuable evidence.

SIMPLE SOFTWARE

Each 8 Port Dock Module comes with Dock Management Software (DMS), which stores video, audio, and data files locally on your own computer or a HauteVIEW Dock Server.

MASSIVE STORAGE

1 to 3 Dock Modules can be attached to a HauteVIEW Dock Server, supporting up to 28 TB of local storage and up to 75 TB of removable storage. Enough for 20 cameras for 1 year.

RUGGED

All hardware is designed for reliable service in the most demanding environments.

QUICK TRANSFER & CHARGE

High speed transfer for minimum wait times while rapidly charging batteries.

EASY TO ADMINSTRATE

Simple and easy to use. Requires little to no training.

FLEXIBLE MOUNTING OPTIONS

8 Port Dock Modules can be placed on a table, mounted to a wall or rack mounted. Up to 9 Dock Modules in a rack can support simultaneous transfer for up to 60 cameras.

AUTO DATA COLLECTION

Fully automatic. No user interaction is required. Just plug your camera in, and transfer begins.
